

OUR WATER AND WASTE POLICY

We commit such as;

- Will follow the support of water management by participating in national and international water initiatives and reduce our water-related environmental impacts throughout the product life cycle,
 - Will choose processes, packaging and raw materials that will reduce the amount of water used and pollution in our production areas through clean production techniques,
 - Will continue to work to reduce our wastewater footprint resulting from our activities and prioritize wastewater management,
 - Will cooperate with relevant institutions and organizations,
- as a DYO BOYA FABRİKALARI A.Ş. carries out production and sales activities
- in the Industrial, Automotive, Furniture, Marine, Construction Paints, Powder Coatings and Insulation sectors.
