

## **OUR RESEARCH AND DEVELOPMENT POLICY**

As DYO PAINT FACTORIES INC., which operates in the production and sales of industrial paints, defense industry paints, furniture paints, coil coatings, automotive repair paints, marine paints, protective coatings, polyester, powder paints, construction paints, and insulation sectors;

We are committed to providing the necessary resources for R&D activities and utilizing these resources in areas such as new product development, improving existing products, and optimizing production processes,

We will form our R&D team with engineers and technicians who are experts and experienced in their fields, and by supporting continuous education and development, we will ensure that our team members keep up with the latest scientific and technological developments,

We will collaborate with universities, research institutions, and other stakeholders in the industry to promote knowledge and experience sharing,

We are committed to increasing the effectiveness and efficiency of our R&D activities,

We will keep our R&D laboratories up to date with technology-appropriate equipment,

We will develop environmentally friendly and sustainable products,

We will research solutions that reduce the use of harmful chemicals, utilize recyclable materials, and provide energy-saving options,

We will direct our R&D efforts based on the needs and expectations of our customers,

We will continuously improve our R&D processes and enhance our efficiency,

We pledge to achieve these commitments.
